If you wish to enter into co-operation, organise events or produce multimedia materials concerning the Kraków Fortress, please contact the Kraków City Commune, which is responsible for the Kraków Fortress project.

The Kraków Fortress is an initiative that assumes a long-term process. Its aim is to create a modern tourist product based on the resources of the former Kraków Fortress and with respect for the existing architecture, landscape and fortress greenery. It is a huge project that brings many partners together. The fortress facilities are managed by municipal institutions, universities, foundations, associations, and private entities. In addition, the Kraków Fortress has a coherent visual identification system designed for different kinds of use.
